

On Wednesday, February 5th we will be participating in
“Chew For Charity!”

This spring the students at Heritage School, with the help of the Saline Kiwanis and parent volunteers, will be packing thousands of meals for the Kids Against Hunger organization.

The goal of the Kids Against Hunger organization is the eradication of world hunger. The organization’s approach includes the packaging of highly nutritious, vitamin-fortified soy-rice meals by volunteers within the USA, Canada and the Middle East, with distribution of those meals to starving children and their families in 70 countries worldwide.

To help Heritage School fund this amazing humanitarian event, we will be collecting dollars in exchange for bubblegum. Kids who donate will be able to chew gum during school on **February 5th!**
