

SALINE HERITAGE ROBOTICS: SPRING ROBO LAB 2022

saline.roboswarm@gmail.com

ROBO LAB INTEREST?

The 2021 State Championship-winning Saline robotics club is considering expanding into a spring season! This survey is to gauge interest for a low-intensity, fun spring season that lets students work on fun building and coding challenges to keep those STEAM skills sharp!

At all times, we'll be working on conducting ourselves with GRACIOUS PROFESSIONALISM and living according to the core values of Discovery, Innovation, Impact, Inclusion, Teamwork, and FUN!

QUICK FACTS

Meetings: We are planning one evening meeting each week in a "drop-in" fashion. Coaches will be on-site to guide the students through fun activities/challenges like "greatest gadget" and "fastest line follower in the west."

Session Start: Early April

Session Length: 6 weeks
